

Undergraduate Academic Requirements for Environmental Law Programs*

School	Biological Sciences	Chemistry	Physics	Mathematics	Other
University of California, Berkeley	-----	-----	-----	-----	<p>Courses in environmental sciences and economics are highly recommended.</p> <p>Related internships/jobs related to environmental law are also recommended.</p>
Vermont Law School	-----	-----	-----	-----	<p>Classes that will require reading, analysis and writing---all skills that are very important in law school and in the practice of law.</p> <p>(Political Science, Philosophy, English literature and Pre-law for example)</p>

**Many environmental law schools do not have any set course prerequisites. These courses are what previous admitted students have taken and were proven to be helpful.*
